winter olympics: salt glow from salt lake

When in Utah, Michael Michele, Tori Spelling and football great Steve Young stop by the Mountain Body store in Park City for a quick fix. Why is that, you ask? Mountain Body's herbal spa and body products are handmade from all-natural resources available right in their backyard. Mountain Glow, their most popular product, is a rejuvenating body scrub made from salt (from the Great Salt Lake) and fresh-pressed fruit-rind oil, which comes in wonderful flavors such as Citrus Mint, Margarita and Lavender. Visiting town? Indulge in one of their many luxurious spa treatments (ask about their Olympic specials for both products and treatments). Or you can glow at home with products sold at

mountainbody.com.
